Foxboro, MA 02035

Dear Dan and Doris,

I am pleased to thank you, on behalf of Dana-Farber Cancer Institute and the Jimmy Fund, for your generous support. I am also delighted to share with you the *State of the Institute*, which highlights many of the landmarks and breakthroughs observed in the past year.

For over 50 years, Dana-Farber and the Jimmy Fund have been committed to moving research quickly and safely from our labs to our patients. We strive to better understand, prevent and cure cancer through research, and to ensure the utmost quality of life for current and future patients. While the Institute leads the global science community in its pursuit to cure cancer through cutting-edge research, it continues to impact the lives of patients and their families from all over the world by employing the most comprehensive, compassionate patient care in cancer.

Your support and vision has fostered many of the research breakthroughs and patient care initiatives that Dana-Farber realized in the past year. Gifts without restriction as to their use are especially valuable and appreciated as such flexibility allows Dana-Farber to advance critical Institute initiatives that otherwise might not receive traditional, more restricted grant funding. You are directly responsible for some of our most innovative advances at the Institute in 2002.

On behalf of my colleagues, our patients and their families, I thank you for your continued generosity.

Sincerely,

Mike Andrews  
Chairman, Jimmy Fund
